License Agreement

§1 This License Agreement is a legal agreement between you (either an individual or a company) and Subsembly GmbH for the Subsembly SmartCard API (Express) Development Kit. By installing, copying, or otherwise using the Subsembly SmartCard API (Express) Development Kit, you agree to be bound by the terms of this License Agreement. If you do not agree to the terms of this License Agreement, do not purchase, install or use the Subsembly SmartCard API (Express) Development Kit.

License conditions

§2 The Subsembly SmartCard API (Express) Development Kit is protected by copyright laws and international copyright agreements, as well as other intellectual property laws and agreements. No part of the software or the manual may be multiplied, disseminated or processed in any way without the written consent of Subsembly GmbH. Violations of these conditions will be prosecuted in every case.

§3 The use of the software is done at your own risk. Subsembly GmbH accepts no liability for any damages, either as direct or indirect consequence of the use or abuse of this product or software. The Subsembly SmartCard API (Express) Development Kit is being licensed and not sold.

§4 You may not reverse engineer, decompile, or disassemble the Subsembly SmartCard API (Express) Development Kit, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

§5 You may not transmit the Subsembly SmartCard API (Express) Development Kit, or any parts of it without the prior permission of Subsembly GmbH.

§6 You may use the Subsembly SmartCard API (Express) Development Kit **free of charge for evaluation purposes or for any non-commercial private or non-commercial educational use**. You may not redistribute the runtime files under these terms.

§7 For any commercial use or for redistribution of the runtime files, a commercial license is required.

License for commercial use

If you have purchased a commercial license of the Subsembly SmartCard API (Express) Development Kit you will be granted the following additional non-exclusive rights:

§8 You may use the Subsembly SmartCard API (Express) Development Kit for commercial projects.

§9 You may redistribute the runtime files (listed below) according to the following terms.

- The runtime files may only be redistributed with your own software applications.
- The runtime files may only be redistributed with applications that contain functionality based on the Subsembly SmartCard API.
- The runtime files may only be redistributed with applications that add considerable functionality in addition to the Subsembly SmartCard API.
- Redistribution of the runtime files on their own is expressly prohibited.

§10 If you have purchased a commercial license that includes the source code of the Subsembly SmartCard API, then the following additional terms apply.

- The source code must not be redistributed or disclosed to third parties in any way.
- The source code may be modified and used to rebuild the redistributable runtime files as needed. If a modified version of the runtime files is created, then it must only be redistributed using a name different from the original name. This is in order to clearly distinguish modified files from

the original files.

Redistributable Runtime Files

The following file may be redistributed according to §9:

- Subsembly.SmartCard.Express.dll
